

# Cloud Capital: Investing in a Seamless AWS Migration

A global investment management company leverages TEKsystems Global Services' industry and AWS expertise to achieve a seamless AWS migration to enhance the customer experience.

# Enabling Operational Independence Without End-User Disruption

Our customer is a [multi-asset class investment manager](#) with over \$600 billion in assets under advisement, serving institutions, financial advisors and individual investors globally. Their commitment to investment excellence and client satisfaction is matched only by their dedication to continuous innovation.

## What We Did

Cloud services

## Industry

Technology enablement

## Results

Substantial reduction in infrastructure costs

Improved application performance, reliability and security

## Key Integrations

AWS

## The Challenge

### Complex AWS Migration

#### Smooth Transition and Uninterrupted Service

After emerging as an independent company in 2021, following a divestiture from a leading financial services company, our customer immediately prioritized client satisfaction when implementing a complex migration to Amazon Web Services (AWS). They teamed up with TEKsystems Global Services (TGS) because of our [AWS Premier Tier Services Partnership status](#). Together, we established a scalable, secure and modern technology foundation—enabling rapid operational independence while supporting future growth and modernization initiatives.

Their goals?

- Migrate hundreds of mission-critical applications from legacy data centers within a strict timeline.
- Ensure uninterrupted service for a global client base.
- Meet rigorous regulatory compliance requirements for investment management.
- Protect sensitive financial data and trading systems.
- Build a modern, scalable infrastructure to support ongoing business transformation.

## Our Solution

### Migration Assessment Program (MAP)

#### Reducing Costs and Accelerating Execution

Aligning with the customer's priorities, our team utilized the AWS Migration Acceleration Program (MAP), a comprehensive and proven cloud migration program. After evaluating the company's technological landscape, we identified migration priorities and developed a tailored roadmap for [cloud adoption](#). By using an outcome-driven methodology like MAP, our team:

- Analyzed application and infrastructure dependencies
- Optimized migration sequencing and minimized business disruption
- Built a business case for cloud migration, including cost and risk analysis

## Powerful Partnership

### Partners in Application Modernization

#### Regulatory Compliance Requirements—Check

Leveraging TGS' AWS Migration Competency as an AWS Premier Tier Services Partner and deep financial services expertise, our customer executed a phased AWS migration strategy. Not only was the full data center exit completed ahead of schedule, but we also facilitated a seamless separation from Wells Fargo's technology stack while maintaining all critical business functions and protecting sensitive customer information.

## Real-World Results

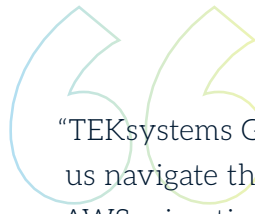

Migrating to AWS allowed our customer to get up and running quickly without limiting their ability to grow and modernize. The cloud-native environment provided the agility and scalability required to support their evolving business needs while also enhancing security and compliance. The successful AWS migration positioned the customer to [pursue further application modernization initiatives](#), including application refactoring, advanced analytics and AI/ML adoption.

Substantial reduction in infrastructure costs

Improved application performance, reliability and security

"TEKsystems Global Services' expertise was crucial in helping us navigate this complex digital transformation. Their deep AWS migration experience and understanding of financial services technology enabled us to complete our migration efficiently while strengthening our technological capabilities."

**Senior Technology Executive**

### About TEKsystems and TEKsystems Global Services®

We're a leading provider of business and technology services. We accelerate business transformation for our customers. Our expertise in strategy, design, execution and operations unlocks business value through a range of solutions. We're a team of 80,000 strong, working with over 6,000 customers—including 80% of the Fortune 500—across North America, Europe and Asia, who partner with us for our scale, full-stack capabilities and speed. We're strategic thinkers, hands-on collaborators, helping customers capitalize on change and master the momentum of technology.
